**2. Business from the Public**

None

**3. Technical Workshop #6 – Modesto Groundwater Model Update**

Stanin introduced the modeling team and stated that the groundwater modeling effort is significant since it will inform discussions on Sustainable Management Criteria. Amador (Woodard & Curran) presented progress to date on the Surface Water - Groundwater Model Development. The C2VSimFG model has been updated with Modesto Subbasin refinements and calibrated. Next steps will include using the model to develop zone water budgets for the subbasin. The presentation is posted on the STRGBA GSA website.

**4. Next Meeting**

August 12, 2020

**5. Items too late for the agenda**

N/A
